This document consists of 13 printed pages and 3 blank pages.

(a) What kind of parks are Port Lympen and West Coast Holiday Parks?

Wild animal park,  
(Like zoo,) you can see the world's rarest and most  
endangered animals. [1]

(b) How much do the furry friends usually cost?

\$2.99, this is the usual retail price of furry friends. [1]

(c) What do the keepers offer on the programme daily?

There is one of the keepers who tells people about  
the animals they look after. [1]

(d) What is the latest time for entrance to the parks each day?

3 p.m. [1]

(e) What can teachers access to help their students?

There are education packs and talks available for  
teachers to help their students. [1]

(f) Which park would you contact for more information?

port Lympen. [1]

[Total: 6]

(a) What would be the team's double world record achievement?

To become the first british all-female expedition to reach the North Pole on foot, taking until June.

(b) How will Ann's weight differ from normal at the end of the expedition?

She will lose her weight by 2 Kilograms. [1]

(c) What aspect of the expedition do scientists particularly want to study?

They are trying to find out how people <sup>would</sup> feel cold and how <sup>would</sup> the body survive <sup>the</sup> extreme cold. [1]

(d) How does Pom Oliver's age compare to Caroline's?

He is older by 15 years. [1]

(e) What benefit will Ann Daniels get from the extra weight?

She is getting more supplies as she weights more than the other ~~two~~ people. [1]

(f) What is Zoë Hudson's role in the expedition?

She is the team-base-camp manager on the walk to the North Pole. [1]

(g) Why are multivitamins preferable to fresh fruit on the expedition?

Fresh fruits are too heavy to carry compared to the light multivitamins such as chocolate bars. [1]

(h) How do they use a natural resource to prepare their meals?

Each morning they have hot rice-type breakfast and hot drinks made from boiling snow. [1]

(i) Give **two** details of the physical challenges the team will endure during the expedition.

1. They have to struggle and survive extreme cold. [1]

2. As they will lose their weights, they have to put on weight. [1]

[Total: 10]

## PERSONAL INFORMATION FORM

## SECTION A

Full name: Martin Gobos.☒ Male / Female (delete whichever does not apply)Age group (please circle): under 20 / 20-30 / 30-40 / over 40Home address: #141 San Reno Drive, Buenos Aires. 1-9 ☐10-19 ☒20-29 ☐Over 30 ☐

When you plan to leave for your next trip (please tick box):

within 2 months ☐2-4 months ☒5-6 months ☐Destination of trip: (Congo river) Democratic Republic of Congo in Africa.

## SECTION B

In the space below, write one sentence about where you will live during your time and one sentence about the reason why the mission is going to that area.

I will spend about 50% of the time living in huts, but  
 I will have to be in ~~the~~ tents too.

The reason I am going to Congo River is to plot a route  
 along its banks as far as possible using new  
 computer technology to update the current maps of the region.

You are a reporter writing an article about the Mayor's speech. Prepare some notes to use as the basis of your article.

Make **three** points under each heading.

Problems associated with landfill sites

- About 73% of household waste in this city is land filled, buried in a hole
- The amount of waste each year is growing larger. in the outside
- There are sometimes leakages happening when the the city.

Wastes are burned.

Ways to help manage waste

- Separate waste for recycling.
- Use financial benefits to encourage more people to take a notice of the
- ~~Put~~ Set up expensive recycling facilities. serious problem.

[Total: 6]

### Exercise 5

Imagine that your newspaper wants you to follow up these notes with a short article.

Look at your notes in Exercise 4 above. Using the ideas in your notes, write a summary of the proposals the Mayor is making.

Your summary should be one paragraph of no more than 70 words. You should use your own words as far as possible.

"How <sup>can</sup> ~~we~~ we help managing the wastes?"

By the ~~ma~~ recent mayor's speech, 3 problems of the city associated with landfill sites were found. First, about 73% of waste from households in this city is buried in a hole outside the city. Second, the amount of the waste each year is getting larger. Third, there are sometimes leakages happening when the wastes are burned. The solutions for these problems can be separating waste for recycling, use financial benefits so that people will be encourage to even take a notice and set up expensive recycling facilities. I am

"Who do you think is <sup>the</sup> best speaker for our Prize day?"

Hi! This is Rebekah Kang. Have you thought of or suggested anyone <sup>to be</sup> ~~for~~ the speaker for our Prize Day? Have you thought of a person coming to our school and speak lively when you only saw him/her only through the medias? I think the fact that someone we saw only through the media and talks to us actually will make us to be interested ~~also~~ in the speech. So, now I am here to suggest Michel Wi to be our guest speaker on this coming Prize Day. Michel Wi is a ~~golfer~~ famous golfer as a young girl whose age is only 17. She recently got <sup>a high</sup> sponsored from "Nike" the company most of us admire. The reason I admire her is that <sup>as</sup> I read many articles about her and found out even though she is in a high position, she is trying her best to be a best student, too. She never misses the school but study harder even after she became famous. It was found that she is going to make an association to give scholarships for those students who cannot afford to pay the education fee. I think [10] She is going to be a great speaker for our Prize Day. I am sure that everyone in our school will be challenged by 17 years old super golfer, Michel Wi. I am sure that she

Dear Councillor,

Hi! This is Rebekah Kang, who is writing you a letter to give my views about the plans to build a very large factory near our neighborhood. First, I was very glad to hear that news as the people in our areas have no - enough jobs, at all. As one of the citizens I would be so glad to see people around me working in a very large and new factory. Second, I think building a factory in our area is going to be the first step to develop our area. <sup>one of the</sup> Characteristics of <sup>the</sup> developed cities is that they have factories. It was found that more than 70% of developed cities in Korea have factories. ~~and~~. On the other hand, there will be many people who want to try to save the open space and ~~and~~ ~~do not~~ want the city to be ~~crowded~~ <sup>crowded</sup>, but if our <sup>area</sup> (city) is going to be developed by this factories, I think we can have more places that will bring us comfort such as parks and libraries. With the reasons above, I think it is going to be nice to have a factory built near our neighborhood. So, please consider the plans carefully. Thank you. •

[10]

From, Rebekah Kang.
